

**NEW**

GeoVision's new ultra compact NVR system allows you to record video files directly to the 500GB internal hard drive and is available NOW from Osmosis Ireland. [www.osmosis.ie](http://www.osmosis.ie)

### All-in-One Solution

The **GV-NVR Lite** ultra compact NVR system allows you to record video files directly to the **500GB internal hard drive**. Exclusively designed for GV-IPCAM H.264 networking surveillance, the GV-NVR System Lite supports a plug and play function to **connect up to 4 cameras (1.3 MegaPixel) automatically!** Its **six USB 2.0 ports** enables connection with multiple peripheral devices, such as USB HDD & USB DVD player etc. Its **Gigabit Ethernet function** enables high speed Internet access for seamless Web browsing. Moreover, the **VESA mounting** solution allows you to mount the ultra slim unit on the back of a computer monitor, or simply leave it free standing.

Please note the GV NVR Lite NVR can only be sold as part of a package.

Packs include the GV NVR Lite Plus: 4 x GV-BX110D 1.3 MegaPixel Cameras OR 4 x GV-MFD110 1.3 MegaPixel Cameras OR 2 of each
